

Biomedical and Clinical Engineering departments across Canada are celebrating the National Biomedical/Clinical Engineering Appreciation Week on May 19-25, 2019. As part of the celebrations, ACCES is once again launching a photo contest to all its registered members in Atlantic Canada.

Whether you're planning cake in the cafeteria at breaks, contests, or lobby displays, we hope you take the time to snap a few pictures of your celebrations – with the ACCES logo visible in the photo – to submit to this year's photo contest.

Please submit your eligible Photos to our [Director of Communications](#) by June 15th, 2019 to qualify. Please limit submissions to one (1) per department. There will be three (3) winners drawn from the submissions, who will each receive a \$200 cheque from ACCES to be used for Biomedical/Clinical Engineering Week activities in May 2020.

The ACCES Executives wish you all a happy Biomedical and Clinical Engineering appreciation week, full of festivities. After all, your celebrations help our Society's mission and

objectives by promoting awareness of our shared profession throughout our hospitals and communities!
