Did you know that ACCES members are eligible for preferred rates with CMBES? In 2015, ACCES signed a Memorandum of Understanding with the Canadian Medical and Biological Engineering Society (CMBES), to foster collaboration and communication between our Societies and realize common goals. This agreement allows ACCES members to become members of CMBES with a 50% discount on membership fees. For more information on how you can take advantage of this wonderful offering, contact our [Director of Membership](#) .
