

The Simplest and Most Accurate Way to Complete PMs.

Mobilize

**WIRELESS,
SYNCHRONIZED,
AUTOMATED
TESTING**

CMMS-DRIVEN MAINTENANCE INTEGRATED SOLUTION

Pronk Mobilize helps you:

- Run your PM Checklists/Procedures on your smart device
- Wireless + instantaneous control of Pronk test equipment
- Your smart device automatically records all your work
- Work offline - sync to CMMS later

If you're a biomed who has ever had to record PM data and manually enter it into a database, then you know the time and effort it takes. What if you could instantly record, capture and report directly to your CMMS from your smart device? Now with the new Pronk Mobilize solution, you can!

USER-DEFINED MAINTENANCE ADAPTABLE SOLUTIONS

Pronk Mobilize helps you:

- Dramatically reduce testing time while automatically recording all your service work
- Wireless single-point control for Electrical Safety, Vital Signs simulation and IV Pump testing
- Simply tap pass/fail, snap a picture of DUT and/or easily capture measured results

Looking to eliminate hunting for the correct procedure for completing the service or PM? Capture/set up your test protocols as you work while wirelessly controlling Pronk test equipment on your smart device. Grow your library of test protocols device type right from you smart device.
